Report on Educational Visit to Amrit Udyan (Botanical Garden), Rashtrapati Bhavan Date of Visit: 20th March 2026

Introduction

An educational visit to the renowned Amrit Udyan, located within the premises of Rashtrapati Bhavan, was organized for the students of Accurate College of Pharmacy on 20th March 2026. The primary objective of this visit was to provide students with exposure to botanical diversity, horticultural practices, and the historical significance of one of India's most prestigious gardens.

Participants and Faculty Accompaniment

Nearly 40 students actively participated in this academic excursion. The group was guided and supervised by the following faculty members:

- Ms. Sarita Prajapati (Associate Professor)
- Ms. Jaya Bhati (Associate Professor)
- Mr. Akshay Nagar (Lecturer)

Their presence ensured discipline, guidance, and educational engagement throughout the trip.

Journey and Schedule

The group departed from the institute via the college's institutional bus. They reached Amrit Udyan at approximately 12:00 noon as per the planned schedule. The visit was well-coordinated, allowing students ample time to explore and observe the garden. After spending a fulfilling afternoon, the group departed and safely returned to the institute at around 4:00 PM on the same day.

About Amrit Udyan

Amrit Udyan, formerly known as the Mughal Gardens, is a magnificent blend of Mughal and British landscaping styles. Designed by Sir Edwin Lutyens, the garden is spread over a vast area and is known for its geometrical layouts, water channels, terraces, and rich biodiversity.

The garden is divided into several sections, including:

- **Rectangular Garden**
- **Long Garden**
- **Circular Garden**

Each section has its own unique charm and horticultural significance.

Floral Diversity and Botanical Significance

The garden is home to a wide variety of flora, making it an excellent learning site for pharmacy students, particularly those interested in medicinal plants and botany.

Some key highlights include:

- **Roses:** Over 150 varieties of roses, including rare and hybrid species.
- **Seasonal Flowers:** Tulips, daisies, marigolds, petunias, and pansies blooming in vibrant colors.
- **Herbal and Medicinal Plants:** Several plants with medicinal properties, relevant to pharmaceutical studies.
- **Trees and Shrubs:** Ornamental and shade-giving trees enhancing ecological diversity.

Students observed plant morphology, diversity, and cultivation techniques, which complemented their academic curriculum.

Historical Importance

The garden holds historical significance as it is part of the Presidential Estate and reflects India's rich cultural and horticultural heritage. Initially inspired by Mughal garden traditions, it incorporates Persian-style water channels and symmetrical layouts. Over time, it has evolved into a symbol of India's botanical excellence and sustainability.

Student Experience

Despite unexpected rainfall during the visit, the enthusiasm of the students remained undeterred. In fact, the rain enhanced the beauty of the garden, making the environment more refreshing and picturesque.

Students:

- Explored different sections of the garden with keen interest
- Observed plant varieties and landscaping techniques
- Captured numerous photographs of flowers and scenic views
- Enjoyed the pleasant weather and natural surroundings

The visit proved to be both educational and recreational, offering a memorable experience to all participants.

Learning Outcomes

The educational visit helped students:

- Gain practical exposure to plant diversity and horticulture
- Understand the importance of botanical gardens in conservation
- Relate theoretical knowledge of pharmacognosy and botany with real-life observations
- Appreciate environmental sustainability and landscape design

Conclusion

The visit to Amrit Udyan was successfully conducted as planned on 20th March 2026. It provided students with a valuable opportunity to explore one of India's most iconic botanical gardens while enhancing their academic understanding. Despite the rainy weather, the trip was thoroughly enjoyed by all, making it a memorable and enriching experience.

Overall, the educational excursion was highly beneficial and achieved its intended objectives of learning, exposure, and engagement.
